**24**

# PROJECT OVERVIEW

We must recognize our unique community challenges but also our shared goals.

We must advocate and champion restoring the Seven Grandfather Teachings into our governance and communities.

We must prioritize tradition, family, voting, and language rights, and together envision unity.

# BACKGROUND

Our journey is forged by centuries of resilience amidst systemic challenges. As the first generation post-200 years of assimilation policies by the US and Canada, we confront ongoing disparities and threats to our cultural identity. Project 2024 emerges as a vital response, uniting us to safeguard our heritage and shape a future of empowerment and unity. While some merely discuss, we set the benchmarks for tangible restoration. We seek to give you an organized platform to demand action from your community leadership.

**WE MUST DO  
WE HAVE NO EXCUSE**

# phase 1 explained

## the seven grandfather teachings

**We must integrate the Seven Grandfather Teachings and their meanings into our tribal constitutions as the foundation for our actions with principle.**

**We must also require, by resolution, our leaders to write a 7th generation justification before any law takes effect.**

# phase 1 explained

## protected family rights

**We must prioritize restoring lineal descent as the cornerstone of tribal citizenship, freeing communities from the confines of blood quantum and external status controls. Embracing our heritage, we must aspire to a future of inclusivity and equality for our families, just as EVERY OTHER NATION in the world does.**

# phase 1 explained

## protected voting rights

**We must advocate for the acknowledgment of protected voting rights for all tribal citizens of age, irrespective of their geographic location. This encompasses enabling absentee or electronic voting methods to guarantee broad community engagement. It is a human right to have a voice in your community and we must ensure every voice has a vote that counts.**

# phase 1 explained

## protected language rights

**We must advocate for the protection of our language rights, advocating for the inclusion of traditional tribal languages of North America in our schools, public presentations, and official documents within our territories. This commitment aims to uphold and advance our linguistic heritage in all aspects of community life.**

# PHASE 2 EXPLAINED

## UNIFIED POLITICAL AND ECONOMIC IDENTITY

**We must achieve a unified political and economic identity based on our ideals, beliefs, and traditions.**

**We must Integrate our elected and Treaty/Doodem Councils locally and nationally, free from external influences.**

**If their communities speak as one coast to coast, we have it in us to do the same.**

# PHASE 2 EXPLAINED

## UNIFIED CITIZENSHIP

**We must advocate for a shared tribal citizenship, identification, and travel system, akin to the US and Canadian federal/state model, except unified for all tribal peoples of north america. We must promote consistency and unity, aligning with global sovereign nations but respecting their borders are not our limitations, empowering our collective voice and inspiring a global mandate of one human family.**

# PHASE 2 EXPLAINED

## DIPLOMATIC ENGAGEMENT

**We must advocate for a transformative shift in global communication practices, urging communities to cease interactions with interior departments of the US and Canada. Instead, we call for diplomatic engagements with state departments, aligning with other sovereign nations to bolster our international standing. We must demand together for state to state communications.**

# JOIN THE MOVEMENT
